To: MARGARET HERRING, DEENA SHEPPARD, Reginald Arkell, Thomas Nash cc: DONALD BRUCE

Subject: Chemical Recovery Moratorium

Wanted to hear from you all, in terms of wanting to proceed with the Engineering Evaluations and Cost Analysis (EE/CA). I will contact the US EPA contractors to proceed with the EE/CA beginning April 1, 2000. We have given the PRPs the opportunity to produce some type of good faith offer, and all we have received to the best of my knowledge, is what I will call a non-producing string of promise. I have not heard back from Ms. Sadler, since her initial contact, where I told her to put her request in writing about the extension. This message is to inquire from all of you as to whether or not a response about the notice letters has been made to anyone.
